

Surya Prakash Maurya

Full Stack Developer | MERN Stack | Gen AI Enthusiast

mauryasurya22@gmail.com | +91 99846 85507 | Bangalore, India | [LinkedIn](#) | [GitHub](#)

OBJECTIVE

Full-Stack Developer with hands-on experience in Node.js, Express.js, React.js, PostgreSQL, MongoDB, and REST API development. Experienced in building scalable web applications, AI-powered solutions, and real-time systems. Seeking opportunities to contribute to innovative software products while continuing to grow as a backend-focused full-stack engineer.

EDUCATIONAL QUALIFICATIONS

Bansal Institute of Science and Technology, Bhopal, MP - Master of Computer Applications (CGPA: 7.65/10)	2022 - 2024
Pt Mahaveer Prasad Tripathi Mahavidyalaya, Mirzapur, UP - Bachelor of Computer Applications (CGPA: 6.03/10)	2017 - 2020
Gomti Inter College, Phulpur, Prayagraj, UP - HSC - Science UP Board (Percentage: 62.8%) - SSC UP Board (Percentage: 77%)	2016 - 2017 2014 - 2015

EXPERIENCE

Thought Penguin (OPC) | Goa, India (Remote)

Full Stack Developer

August 2025 – Present

- Developed and maintained full-stack applications by using **Node.js**, **Express.js**, **React.js**, **PostgreSQL** and **MongoDB**.
- Contributed to live production projects, including [MoodToonz.com](#) and [TrackFluenz.com](#) by implementing new features, developing REST APIs, integrating databases, and optimizing application performance.
- Building and maintaining mobile application features using **React Native CLI**, while collaborating with team members through **Git/GitHub workflows** and **Agile development practices**.
- Gaining hands-on experience in **Full-Stack Development**, **REST APIs** design, **Database Management**, **Mobile Application Development**, debugging, and software development best practices.

Tudip Technologies Pvt. Ltd. | Pune, India (Onsite)

Software Developer Intern

March 2025 – May 2025

- Developed and tested **RESTful APIs** using **Node.js**, **NestJS**, **TypeScript**, and **MySQL** for a real-time backend service, resulting in 15% improvement in response time and better modularization.
- Performed **API** testing using **Postman** and documented endpoints using **Swagger UI**, gained hands-on experience with HTTP methods, status codes, and request/response validation.
- Collaborated with senior developers using **Git** and **GitHub**, gained hands-on experience in debugging, version control and agile development best practices.

PROJECTS

E-Commerce Backend System : [Link](#)

April 2025

- Developed full-featured Admin backend system with **RBAC** to manage users, offers and products through 20+ APIs.
- Implemented secure authentication with **JWT-based access** and hashed passwords using **Bcrypt** (10 Salt Rounds).
- Added 4-digit OTP password reset feature via Email (**NodeMailer**) to improve password security by 100%.
- Integrated Shopping cart functionality with products like - add, update, delete and fetch.
- Applied **global interceptors** and **exception filter**, reducing error response time by 30%.
- Implemented **Swagger UI** for seamless APIs testing and documentation, improving developer efficiency by 40%.
- **Tech Stack:** Node.js, NestJS, JWT Authentication, NodeMailer, Bcrypt, REST API, MySQL, Swagger.

Chat GPT Clone : [Link](#)

February 2026

- Developed a full-stack AI chatbot application with a responsive conversational interface, enabling real-time interactions with an AI model.
- Implemented secure backend APIs using **Node.js** and **Express.js** to process user prompts and generate AI-powered responses.
- Integrated **MongoDB** with **Mongoose** to store and manage chat histories, user sessions, and conversation data.
- Built a modern, responsive frontend using **React.js** and **Tailwind CSS**, delivering a seamless user experience across devices.
- Configured environment-based application settings and API integrations, ensuring secure communication between the frontend, backend, and AI services.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS, REST APIs, OpenAI API, Vite.

- Developed a real-time private messaging application with instant message synchronization using **Firestore** real-time listeners.
- Implemented secure user authentication with **Firestore Authentication**, enabling protected access through email and password login.
- Built advanced messaging features including **voice notes, swipe-to-reply, message reactions, read receipts, typing indicators, and message management actions.**
- Designed a responsive mobile-first user interface with **dark/light theme support**, desktop notifications, and smart date-based message grouping.
- Integrated real-time presence tracking and notification systems to enhance user engagement and deliver a modern chat experience.
- **Tech Stack:** HTML5, CSS3, JavaScript (ES6+), **Firestore**, **Firestore Authentication**, Real-Time Database Features, Web Notifications API, Local Storage.

TECHNICAL SKILLS

- **Programming Language:** Java, JavaScript, TypeScript, C
- **Frontend:** HTML5, CSS3, Tailwind CSS, Bootstrap, React.js, Astro.js
- **Backend:** Node.js, Express.js, NestJS, REST APIs, Authentication & Authorization
- **Mobile Development:** React Native CLI, React Native Expo
- **Databases:** MySQL, PostgreSQL, MongoDB, Relational Database Management System (RDBMS)
- **Development Tools:** Git, GitHub, VS Code, Postman, Swagger.
- **Core Concepts:** OOP, DSA, Agile, SDLC, Problem Solving, Version Control

ADDITIONAL INFORMATION

- **Strengths:** Team Collaboration, Analytical Thinking, Problem-solving Mindset, Curiosity.
- **Interest:** Cooking, Exploring New Places, Listening Music.

CERTIFICATIONS

Deloitte Australia Technology Job Simulation on Forage

June 2025

- Completed a job simulation involving development and coding
- Wrote a proposal for creating a dashboard
